Created in 2006, the brand was born with a clear ambition: make travelling with a campervan as simple, comfortable and accessible as possible. Taken over by the RAPIDO Group in 2014, DREAMER has developed innovative models suited to new uses.

Our Collection 2026 reflects our goal: offer compact and manoeuvrable campervans, with clever fittings for daily comfort and practicality. Designed for two or several travellers, they adapt to all requirements.

From the coast to the snow-capped mountains, live free adventures.

A OPTIMUM TEMPERATURE THROUGHOUT THE YEAR

To allow you to fully enjoy your fitted vehicle in all seasons, whether in summer or winter, we propose an optional roof canvas insulation kit*.

This high performance kit provides effective insulation to the pop-up roof, to ensure optimum use of your vehicle throughout the year, even in demanding climatic conditions.

Associated with our XHP high performance insulation and our fuel heating system, the roof canvas insulation kit considerably reinforces heat and sound insulation of your vehicle. The XHP insulation already offers an exceptional level of insulation level, effectively limiting heat loss in winter and cooling the interior in summer.

Enjoy maximum comfort by choosing this comprehensive solution, adapted to all seasons.

Thanks to the **XHP insulation system**, by **-15°C** exterior temperature, the interior temperature of **+20°C** is reached in **3H32**.

DREAMER insulation and heating test as per the **NF EN 1646-1 standard** with a TRUMA COMBI 4 at -15° C.

* Available as an option.
